Community FIRST: Food Insecurity Risk Score Tracker

Helping Schools & Community Centers Identify Food Hardship:

- Uses easy-to-obtain intake info (no medical data)

- Scores household food insecurity risk (0-100)

- Flags Critical, High, Medium, or Low need

- Supports outreach, referrals, and reporting

- Upload or enter data in real-time

- Built for Full-Service Community Schools & Resource Hubs

Simple. Secure. Actionable.

The Community FIRST tool empowers school liaisons, coordinators, and nonprofit teams to identify households at risk of food insecurity using basic intake fields. Designed to simplify outreach, track need levels, and support equitable service delivery.
